

Spiral Freezer for freezing chicken products at Specialised Chicken

About Specialised Chicken

For over 40 years, Specialised Chicken has been crafting Australia's favourite comfort chicken food. Their mission is to "keep you smiling with every bite," and they've become known for delicious, innovative, and high-quality frozen and ready-to-cook chicken products. Built on "love and passion" and the use of fresh, tasty ingredients, Specialised Chicken has become a staple in the Australian food industry.

Specialised Chicken Requirements

Recently, after years of reliable operation, Specialised Chicken needed important maintenance on their production line, specifically their Modular Seamless Welded Stainless Steel Spiral Freezer, built in 2007. This Spiral Freezer had been working perfectly and without problems until now, when Orangefreezing Solutions conducted its first comprehensive inspection and identified necessary enhancements. Orangefreezing Solutions was tasked with a full service, addressing product loss due to falling off and rolling over by installing new side guards, and enhancing the system's performance through the replacement of worn drumstrips and the upgrade of the main drum drive mechanism. This work was crucial to maintain the high standards that Specialised Chicken is renowned for.

Specialised Chicken Satisfaction

“At Specialised Chicken, we've been crafting our popular chicken products for many years now, and keeping our equipment—especially our Spiral Freezer—in top shape is essential,” says Managing Director Ralph Anania. “The recent refurbishment work was a combined team effort. The Orangefreezing Solutions crew worked closely with our team, offering expert guidance to seamlessly implement all the improved upgraded parts. Thanks to the new side guards, we have significantly reduced product loss, and the enhanced drum drive mechanism has made our line run much more efficiently. Their attention to detail and collaborative approach mean that we can now continue delivering the same high-quality products our customers have come to enjoy. With this ongoing partnership, we’re set to keep bringing smiles to our customers, bite after bite.”
